

**THE CORPORATION OF TAY VALLEY TOWNSHIP
HYDROGEOLOGICAL REVIEW
MABERLY PINES SUBDIVISION**

CONTRACT #2021-PD-002

ADDENDUM NO. 2

**THIS ADDENDUM SHALL BE INCORPORATED INTO THE RFP PACKAGE AND SHALL
FORM A PART OF THE CONTRACT DOCUMENTS**

Date Issued: October 4, 2021
Issued By: Amanda Mabo, Clerk

Please note the following changes, corrections, additions, deletions, information and/or instructions in connection with the RFP Package. Failure to acknowledge receipt of this Addendum as per Part "A" – Information to Bidders may render your submission non-responsive.

This addendum is to address the following clarification:

Clarifications:

The RFP submission deadline remains the same and is not changed by Addendum No. 2.

Questions & Answers:

- Q1:** Should a well survey (interview with the well owner to understand the water quality and quantity) on the existing wells be included in the scope of work?
- A1:** This is an alternative if the owners do not agree to having their wells taken offline for a day to be sampled.
- Q2:** Can the Township please confirm the existing wells are with pump and ready to be sampled?
- A2:** If the owners agree, the wells are not with pump and ready to be sampled.
- Q3:** For the Terrain evaluation, is the municipality looking to get conceptual lot designs or actual tested, lot-specific layouts?
- A3:** The municipality is not looking for conceptual lot designs. Actual lot specific layouts based on confirmation of soil depth is required for septic system locations.
- Q4:** Are there surveyed plans detailing the lot layout available for the subdivision? Can these plans be provided in CAD format?

CONTRACT #2021-PD-002

ADDENDUM NO. 2

- A4:** There are surveyed plans, they cannot be provided in CAD. The Survey Plan is attached and will be posted to the website.
- Q5:** Is the WESA Hydro-G report available for review?
- A5:** See Addendum No. 1, the WESA Hydro-G report is attached and posted to the website.
- Q6:** Excluding those that are currently in use on a developed lot, do any of the wells for the WESA Hydro-G investigation remain serviceable?
- A6:** No wells were drilled for the WESA report.
